

VISHNU J

AI & PYTHON DEVELOPER

vishnuvibin813@gmail.com | +91 9486765981 | Coimbatore, Tamil Nadu
github.com/Vishnu Vibin | linkedin.com/in/vishnu-vibin-48ab85281

PROFESSIONAL SUMMARY

B.Tech Artificial Intelligence & Data Science student experienced in Artificial Intelligence, full-stack application development, backend engineering, and intelligent systems integration. Skilled in bridging Python/Java backend architectures and relational databases with responsive user interfaces.

TECHNICAL SKILLS

Programming:	Python, Java, JavaScript, SQL
Backend & APIs:	Flask, RESTful APIs
Front-End:	React.js, Tailwind CSS
AI & Vision:	YOLOv8, TensorFlow, EasyOCR, Machine Learning Models
Databases & Tools:	Relational Databases (SQL), MongoDB, Git, Environment Management

PROJECTS & APPLICATION DEVELOPMENT

AI-Powered Engineering Diagram Analysis System

- Developed an AI-based system for automated engineering diagram analysis.
- Used YOLOv8 to detect and identify components from engineering diagrams.
- Integrated TensorFlow-based analysis with EasyOCR for extracting text and component information.
- Implemented document processing to convert diagram information into structured data.
- Built real-time network path tracing to analyze relationships between detected engineering components.

Intelligent Knowledge-Retrieval Web Application

- Engineered a conversational web application using Flask to manage context state and custom user sessions.
- Implemented PDF file-processing pipelines to process custom text inputs and feed optimized contexts into LLMs via the Groq API.
- Designed the application to support custom text inputs and context-aware question answering.

Real-Time Networking Systems & Desktop GUIs

- Built multi-threaded server-client communication utilities using Java Socket Programming.
- Implemented real-time communication between connected clients and server-side processes.
- Programmed responsive Java desktop GUIs with real-time rendering, event handling, and model state binding.
- Integrated application state handling with interactive desktop interface components.

EDUCATION

B.Tech - Artificial Intelligence & Data Science	Jan 2023 – Present (3rd Year)
KGISL Institute of Technology, Coimbatore	CGPA: 7.8
HSC - Higher Secondary Certificate	Jan 2021 – Jan 2023
Sri Krishna Matric Higher Secondary School, Coimbatore	Percentage: 89% Cutoff: 171/200

CORE COMPETENCIES & ACHIEVEMENTS

- AI Engineering:** Computer vision, machine learning models, YOLOv8, TensorFlow, and EasyOCR
- Full stack Development :** Python/Flask backend development, RESTful APIs, React.js, and Tailwind CSS
- Intelligent Applications:** LLM integration, PDF processing, context-aware systems, and AI-powered application development
